LOGIC AND COMBINATORICS SEMINAR

David Galvin

University of Notre Dame

Will give a lecture entitled:

Szemeredi's regularity lemma (III)

On

Thursday, February 17, 2011

At

11:00 AM

In

125 Hayes-Healy Hall

Abstract

In this last of a series of talks on Szemeredi's regularity lemma, I will complete the proof of the first non-trivial case of the Erdos-Stone theorem, and then give an idea of the proof of the regularity lemma.
