4:00 PM  
319 DeBartolo Hall

**Title:** Professional Development in Mathematics

**Abstract:**

Does the thought of the job search stress you out? Does just hearing the words "Teaching Statement" make you shudder? Do you sob at the thought of interviewing? Well, help is on the way! This semester the people who can assist you with all these issues (and more!) are coming to you. The first session will be an introductory gathering where you will learn about topics to be covered this semester.
