

Mathematics Teaching Seminar

Speaker: Laura J. Wells

University of Notre Dame

Will give a lecture titled:

An Introduction to Taylor/McLaurin Series

Abstract: I will introduce Taylor/Maclaurin series, discuss their motivation, and go through a few examples leading to Euler's identity.

Speaker: Jens J. Kjaer

University of Notre Dame

Will give a lecture titled:

Defining the Riemann Integral

Abstract: I will in this brief talk define the Riemann integral of a real continuous function. I will motivate both the definition and the need for integration using classical area calculations.
