

Topology Seminar

Guest Speaker:
Clark Barwick - MIT

Seminar Title #1: The Hill-Hopkins Program

Date: Tuesday, November 29, 2016

Time: 2:30 pm

Location: 258 Hurley Hall

Abstract: With motivation from various algebraic examples, we describe a far-flung project to realize a program suggested Mike Hill and (in part) Mike Hopkins.

Break: Departmental Tea at 3:30 pm in 257 Hurley

Seminar Title #2: ∞ -Categories for End-Users

Date: Tuesday, November 29, 2016

Time: 4:00 pm

Location: 258 Hurley Hall

Abstract: I'll explain an under-appreciated feature of quasicategories which makes them extremely well-adapted for giving very concrete constructions; we'll explain how to make many of the constructions in our main talk precise.
