

Instructors and Teaching Assistants:

On the following pages you will find various listings of the Spring 2018 courses and the administrative assistant assignments. Please note that the assistant who is assigned to the course you are instructing or TAing is here to help in any course related situations that might come up this Spring. Please make a note that the policy we would like to uphold is to receive items that need to be photocopied **2 working days** prior to your needs. I realize that there are times when shorter notice cannot be helped but we encourage you to honor this **2-day** policy. Along with the multiple courses that the administrative assistants organize they are also responsible for other departmental duties. Upholding the 2-day policy is very much appreciated. This information can also be found on our website under Faculty Resources.

Any work, other than your course work or jobs mentioned on the staff website (<https://math.nd.edu/people/administrative-support/>), should be brought to me for distribution to the appropriate available assistant. This is to not overwhelm any particular assistant.
