

## ***MATHEMATICS TEACHING SEMINAR***

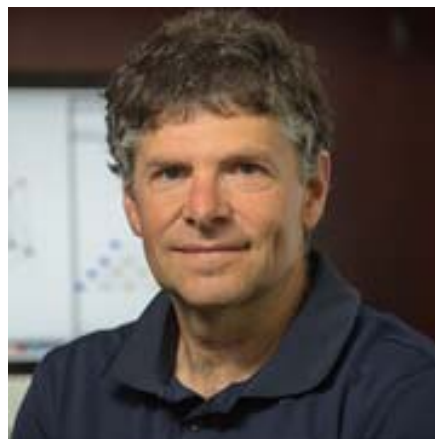

**Guest Speaker: Michael Gekhtman**

**University of Notre Dame**

***Date:*** Tuesday, February 26, 2019

***Time:*** 5:00 PM

***Location:*** 125 Hayes-Healy Hall

***Lecture Title:***

**Teaching by example**

***Abstract***

I will share some thoughts about teaching using the mathematical topic - “scissor equivalence” in 2D and 3D. After appropriate adjustments, this concept can be discussed in a class of any level: from an undergraduate freshman seminar for non-majors to a topics course for honors math majors to a graduate course.
