

Colloquium

University of Notre Dame
Department of Mathematics

Robin Hartshorne - University of California, Berkeley

Speaker: Robin Hartshorne
University of California, Berkeley

Will give a lecture entitled

Set-theoretic complete intersections

Date: Friday, June 7, 2019

Time: 5:00 PM

Location: 127 Hayes-Healy Hall

Abstract:

I will discuss the history and some old and new results about set-theoretic complete intersections in projective space, with special emphasis on the still open problem, Is every irreducible curve in projective 3-space a set-theoretic complete intersection?
