***Abstract***

So you went and did it. You've majored in math. It seemed like a good thing at the time, but now you're wondering what happens after graduation. What sorts of jobs are compatible with a math major? How do you best prepare for to land them? For this panel discussion, we assemble some Notre Dame math alums who recount their own career paths after leaving Notre Dame and then participate in a discussion about careers in mathematics.

Moderator: TBA

Panel participants:

Paul Hughes-Cromwick  
Senior Analyst, Center for Studying Health Spending, at the Altarum Institute

Tom Zahm  
Systems Analyst at Raytheon

Gary Jbara
