

MATHEMATICS TEACHING SEMINAR

Guest Speaker: Arthur Lim

University of Notre Dame

Date: Tuesday, January 28, 2020

Time: 5:00 PM

Location: 125 Hayes-Healy Hall

Lecture Title:

Considerations for Teaching Your First Class

Abstract

Most of us starts off our teaching career teaching a freshmen mathematics class. There are certainly lots to think about when teaching a first class. How should the course be graded? Who are we teaching? What should our expectations be? What should be discussed in class? Where should we get help as a new teacher when we have questions? In this lecture, I like to talk about some practices that are important to keep in mind when we teach a freshmen class. Of course, many of these ideas would still apply for upperclassmen classes.
