MATHEMATICS TEACHING SEMINAR

Guest Speaker: Brandon Fu

University of Notre Dame

Date: Tuesday, February 27, 2024
Time: 5:00 PM
Location: 125 Hayes-Healy Bldg
Zoom URL: NA

Lecture Title:
Demystify Riemann Integral

Abstract

Integral virtually appears in all areas of studies. In the first part of this lecture, we will provide examples from real life to introduce intuition behind Riemann integral. In the second part, we will define Riemann sum and give the definition of Riemann integral. As time permits, we will also give examples of computing integrals by definition.
