Title: Resources and Strategies for Developing as a Teacher-Scholar

Abstract:

Documenting evidence of teaching excellence/effectiveness is a common practice for graduate students as they prepare for the academic job market. This session will address the various ways that the Kaneb Center for Teaching and Learning can assist graduate students as they demonstrate their commitment to teaching while at Notre Dame. Session attendees will learn about the programs and services of the Kaneb Center and discuss teaching philosophy statements/teaching portfolios as helpful starting points for documenting TA and/or instructor of record experiences.
